

## CHARLESTON COUNTY SCHOOL DISTRICT

The mission of the Charleston County School District (CCSD), a dynamic system of challenging educational choices, is to increase student achievement and close the gap between groups in order to prepare all students to compete in a global economy and make a positive contribution to our community and nation.

### CHARLESTON ACHIEVING EXCELLENCE

#### GOALS

- Increase student achievement
- Close the achievement gap
- Increase graduation rate

## Department OF EXCEPTIONAL CHILDREN Services

(DECS) provides services for Charleston County School District staff, students, parents, and the Charleston community. The services are individualized and designed to give students with disabilities the opportunity to reach their full potential. DECS provides a range of educational programs and related services to students found eligible for special education. Special education is a service students receive to support access to the general curriculum and to promote integration with age appropriate peers. It does not constitute a specific setting or instructional environment. In a tiered approach, IEP teams would consider the level and type of support a student needs, where that support can be provided, and determine the amount of instruction needed outside of the general education classroom.
