Science Fair

North Charleston Elementary held its first Science Fair this week.

Science Fair projects were completed by each class in the school and many students completed an individual project as well. First place in the grades 3-5 category went to Mrs. Shelor's third grade class with their project on how various liquids effect plants. Ms.Poetz's Hearing Impaired elementary class tied for first place with their project on Acids and Bases. The winner in the Kindergarten – 2nd grade category went to 1st graders in Mrs. Stanley's class. Their project was, We Can't See Air, so How Do We Know It's There?

Individual winners were:

First place - Alexis Hutchinson, 5th grade, How salt effects the freezing of water

Second Place – Roderia Olds and Quanila White, 5th grade, Invisible Ink

Third Place – Lumin Graham, 3rd grade, Bouncing Balls
