IV. Public Comment

The following public comment was received and read:

Hello board,

We live in Tupelo neighborhood. Our neighborhood has gotten wind of the prospect of a new middle school/high school to be potentially built in Awendaw. Let me make it known now, that our neighborhood will not support this idea. We have purchased our homes based on their location and their school zone. Our high schoolers will attend Wando, which is an amazing school and a huge reason we purchased our homes in this location. I understand zoning for this school is not even being considered yet-but if this school needs a certain amount of students and there isn't enough demand in Awendaw/McClellenville-then do not potentially punish our families in order to make this happen. If there are not enough students in the existing zone and school district, then the need for this school is not there at this time. This is potentially pushing our children into a situation that none of our families signed up for. By potentially building this school in Awendaw, and therefore potentially rezoning our children to this new smaller school several things will occur. First, you could be causing us to drive 20-25 min North of where we live in order to take our children to school when we can hear the Wando band practicing from our back yards. Second, this will significantly drop all of our home values (meaning our entire neighborhood will not be happy with this decision). People pay for their houses largely based on the school district and school opportunities. We will not be downgraded. Third, you would be taking opportunities from our children. We bought our homes in this area for a reason, and it was not to attend a small high school 15-20 min away. It was to attend Wando high school and give our children all of those opportunities. I know this decision may not effect your families but it could greatly negatively effect ours. Why are you paying and planning for a school with not enough need/demand. Please don't let this school be built.

Thank you for considering our concerns,

Lindsay Lee
