2.0 SCOPE OF SOLICITATION

Charleston County School District (CCSD) employs approximately 6000 employees. It is currently the second largest school district in the state and one of the top five employers in Charleston County. The district supplies a full staff of educators, teacher assistants, administrators, food service workers, facility maintenance, finance, clerical, IT, and support staff for almost 50,000 students in approximately 85 facilities.

The District is seeking proposals for a company to conduct internet and social media screenings. We are seeking a company that has an existing interface or the ability to integrate with our current applicant system, Frontline Recruiting & Hiring (acceptable if it's a separate solution). The intent of this solicitation is to identify an offeror that can provide internet and social media screenings that will increase the efficiency of Charleston County School District's background check process. The solution is expected to provide a user-friendly system that decreases the amount of time spent performing such screenings by our employees, as well as provides a decrease in the costs currently associated with performing such internet and social media screenings.

MAXIMUM CONTRACT PERIOD – **Estimated** December 16, 2021 through December 15, 2026 Five years (One year with the option to renew annually) Dates provided are estimates only. Any resulting contract will begin on the date specified in the notice of award. See clause entitled “Term of Contract – Effective Date/Initial Contract Period.”

ACQUIRE SERVICES - The purpose of this solicitation is to acquire services complying with the enclosed description and/or specifications and conditions. Through this method, the District has attempted to provide the minimum amount of specifications and requirements in order not to transform this RFP into a Bid. The District does not want to limit your creativeness or ingenuity by over specifying the requirements of this solicitation.

(B) Have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain or performing a public (federal, state, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(C) Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (A) (1) (i) (B) of this provision.

(ii) Offeror has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any public (federal, state, or local) entity.

(2) 'Principals.' For the purpose of this certification, means Officials; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

(b) Offeror shall provide immediate written notice to the Procurement Official if, at any time prior to contract award, Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) If Offeror is unable to certify the representations stated in paragraphs (a) (1), Offeror must submit a written explanation regarding its inability to make the certification. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. CODE OF LAWS AVAILABLE The Charleston County School District Procurement Code is available at <https://www.ccsdschools.com/Page/257>

COVENANT AGAINST CONTINGENT FEES The vendor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the vendor for the purpose of securing business. For breach or violation of this warranty, CCSD, shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

DEFAULT:

(a) (1) CCSD may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to:

(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;

(ii) Make progress, so as to endanger performance of this contract (but see paragraph (a)(2) of this clause); or

(iii) Perform any of the other material provisions of this contract (but see paragraph (a)(2) of this clause).

(2) CCSD's right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Procurement Officer) after receipt of the notice from the Procurement Officer specifying the failure.

(b) If CCSD terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Procurement Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to CCSD for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of CCSD in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, CCSD may require the Contractor to transfer title and deliver to CCSD, as directed by the Procurement Officer, any (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract. Upon direction of the Procurement Officer, the Contractor shall also protect and preserve property in its possession in which CCSD has an interest.

(f) CCSD shall pay contract price for completed supplies delivered and accepted. The Contractor and Procurement Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property; if the parties fail to agree, the Procurement Officer shall set an amount subject to the Contractor's rights under the Disputes clause. Failure to agree will be a dispute under the Disputes clause. CCSD may withhold from these amounts any sum the Procurement Officer determines to be necessary to protect CCSD against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of CCSD, be the same as if the termination had been issued for the convenience of CCSD. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of CCSD, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor's rights under the Disputes clause.

(h) The rights and remedies of CCSD in this clause are in addition to any other rights and remedies provided by law or under this contract.

DEADLINE FOR SUBMISSION OF OFFER Any offer received after the Procurement Official or designee has declared that the time set for opening has arrived, shall be rejected unless the offer has been delivered to the designated purchasing office or mail room which services that purchasing office prior to the bid opening.

- The system will provide a web-based interface for accessing data, metrics, and reports
- Must be compatible with any Internet Browser (Internet Explorer, Mozilla/Firefox, Chrome, etc.)

It is the District's intent to secure a solution that streamlines our existing hiring process wherever possible. The solution must provide an easy to use, intuitive interface that allows applicants to submit background information from an Internet enabled computer.

The solution must have the ability to interface with our current applicant tracking system, Frontline Recruiting & Hiring, (acceptable if it's a separate solution) as well as provide easy to use, intuitive results that allows all authorized District personnel to access applicant information 24 hours a day and from any Internet enabled computer.

It is important that the solution be able to set varying levels of user rights for different individual and groups of users. These rights should at minimum control which users have full or limited viewing rights.

Please review this solicitation carefully; the District will not be responsible for any errors or omissions on the part of the offeror in submitting a proposal.

5. SYSTEM REQUIREMENTS

This section of the RFP provides information regarding the requirements of the District’s internet and social media screening program. The corresponding sections of the proposal should include both a brief narrative description of how the proposal will meet the requirements and the completed System Requirements Form.

A. Internet and Social Media Screening Program

- B. The District currently receives its applications through online, electronic means. Candidates input information that is then transferred into a searchable database. The internet and social media screening information should be easy to use and intuitive for users and interface with our current applicant tracking system, Frontline Recruiting & Hiring. It should include helpful directions and help menus and should not require any training to complete.

Proposals should provide a general description of the online internet and social media screening including what information is needed to conduct the internet and social media screening (last known addresses for the past 5 years, date of birth, driver’s license #, etc.), how the solution accommodates different types of information (internet activity, user generated accounts, etc.) how often information is accessed, and what type of help is available for users.

6. PRODUCT TECHNOLOGY REQUIREMENTS

A. System Technology

The District’s primary data warehouses for employee and financial information systems run on Microsoft SQL server. The system with which the product must interface is currently Frontline Recruiting & Hiring. The District’s digital video distribution system consists of VBrick encoders and a Polycom video teleconferencing system version 7.3 and uses a local Informix database, but will be converted to Microsoft SQL Server and will be hosted remotely by the vendor.

The District’s computing environment is Windows based. Operating systems include primarily Windows 7. End users use predominately Chrome, Internet Explorer, Mozilla Firefox.

The District requires an internet and social media screening program that may interface with our current applicant tracking program, which is written in an industry standard language. The District requires a web browser based solution that does not require installation of any client software on administrator workstations. Use of the system should be browser independent and operating platform independent.

The District requires that the proposed solution has been in use by other, similar state department of education, K-12 education consortium, or school districts in the same configuration and based on the same architecture and technology for at least two (2) years.

The District requires a system that will require little on-site maintenance or support from technical staff.

Proposals should provide a general description of the technology specifications of the proposed solution, including programming language and the environment required for operation. Proposals must also include a completed checklist as follows:

- Written in an industry standard language
- System with an existing interface with Frontline Recruiting & Hiring or the ability to interface
- Operating platform independent
- Browser independent
- Requires installation of software on workstations (no is preferable)
- Possible to be installed at District site
- Possible to be hosted by the vendor and subscribed to by District

B. Scalability

The District expects that the volume of background checks requested received every year will rise over time and also expects to expand administrative usage; both in terms of number of active users and the total time those users are on the system. Proposals should describe how usage factors such as these determine system performance and capacity, and how the system can be scaled up in the future as need arises.

C. Testing, Quality Control, and Data Integrity

The system should be well tested, and the offeror should pursue rigorous quality control measures that assure consistent and reliable functioning. Proposals should include a general description of testing and quality assurance measures taken during development, and should describe how these and any other followed procedures ensure the consistent performance of the solution.

Data Integrity and preservation are of paramount importance to the District. Vendors should describe all measures taken to protect against database corruption or data loss, including system features and recommended backup procedures. Proposals should specifically address how these features and procedures protect against data compromise during restart, update, and upgrade procedures.

D. Hardware Specifications

Proposals should include detailed specifications for all required hardware, system software, and any other support equipment necessary to implement the system described in the RFP. This description should include any necessary server and client (if applicable) hardware or software. The District does not require that offeror provide all required hardware and software if such hardware and software is common and commercially available, but does require adequate specifications so that the District can procure the equipment.

Your proposal will detail:

- Sufficient hardware specifications such that the District may purchase piece of hardware from a standard supplier (i.e. server processor speed, RAM, storage, etc. required)
- A configuration detailed by line item that matches the requirements of your solution
- A configuration of proposed document scanning equipment
- All software required to appropriately operate the hardware
- Encryption

E. Security

The District requires that all data transmitted through the applicant tracking system be secure. The District envisions at least three security measures: password protection, controllable access rights for administrators, and encrypted internet data transmission.

“Nonpublic” information (not disclosable under applicable federal, state, or local law or regulation) and “essential” information (which if lost or corrupted may disrupt operations essential to provision of CCSD services) shall be encrypted prior to and during storage, and during transmission over the internet, using encryption meeting strong, modern cryptographic methods. Passwords, email, and FTP file transfers containing nonpublic or essential information, shall be encrypted during transmission.

The District requires the ability to establish various levels of user rights for different individual and groups of users. For instance, school administrators that use Frontline Recruiting & Hiring should not be able to access or view any results but HR users should. Proposals should include both the parameters for user rights control and should provide at least two examples of how user rights control can benefit the District.

The District requires that all information transferred over the Internet be encrypted. Proposals should specify the method of encryption used, as well as what data is encrypted.

Proposals should include an overview of system security and should specify whether security is implemented by means of system software, application programs, or both. Proposals must also include a completed checklist as follows:

- Users can change their password or have an appropriate contact person at the company
- Users do not have to share passwords
- Password entry is suppressed
- System enables District to set various levels of user rights
- All data transmitted over the Internet is encrypted (the database is required to be encrypted)

C. Training

The District requires that the selected offeror be able to provide, at the District’s training facilities, comprehensive, high quality training seminars for Human Resources employees that will request and access the internet and social media screening. Proposals should include a description of the time required for users to be trained on the system, the site requirements for training to be conducted, and a proposal for how all of the users within the District will be trained. The proposal should include all available training options, such as off-site training or “train the trainer” models currently used by the offeror. For each training scenario, pricing should be described and an estimated cost provided for Twenty (20) end users and two (2) systems administrators.

D. Support and Maintenance

The District requires an offeror capable of providing customer support and system maintenance on an ongoing basis. Proposals should provide a description of standard support and maintenance provided, including policy regarding standard software update and upgrades developed by the offeror and later customization requests made by the District. When applicable, offeror's should provide a copy of a standard support and maintenance agreement. Proposals will also include the answers to the following specific questions:

- Does the offeror specifically staff a customer and technical support team?
- Is the District expected to route requests for assistance through the District's System Administrator for:
 - HR team inquiries (logging in, results, etc)
- Describe your Helpdesk/Technical Support ticketing system. Can the District have access to the system to gather reports of questions and to check status on technical issues?
- What hours of the day and days of the year are customer and technical support available?
- What are expected response times of customer and technical support?
- Are standard product updates and upgrades included in the cost of the product or optional and extra? If optional and extra, is the offeror willing and capable of supporting older versions of the software in the case that the District elects not to update or upgrade the software? For what period is this support of older versions available?
- What ongoing support and training is available for users of the system and the District?
- Does the offeror actively monitor installed software to identify problems if and as they occur? If so, describe the remote diagnostics/maintenance capabilities and software used for this purpose.
- What preventative maintenance measures does the offeror take?
- Is online user support available?
- Is there a printable user manual? Will the user manuals be provided in Microsoft Word so that the District may customize it?

E. Implementation

Proposals must include an implementation plan for the project, including a schedule of project steps, the order and time requirements for each, District personnel that need to be involved and their expected time commitments. Please provide an overview of the professional services you offer, not third party, that are necessary to implement this system, including your project management process. Proposals should also provide the following:

- Description of the offeror's implementation approach, which will fully address the requirements of this RFP
- Proposed methodology for quality assurance and benchmarking performance
- A work plan for the project, which meets the stated deadlines of the District
- Detail the members of your project/implementation team
- Provide the experience of your project/implementation team and site similar experience
- We require a single-point-of-contact project manager from the Offeror

INVOICE

An itemized invoice copy must be provided to the end user clearly indicating all the associated charges related to the deliveries before submission to the Accounts Payable Department for processing.

PURCHASING CARD Contractor agrees to accept payment by the Charleston County School District Purchasing Card for no extra charge. The Purchasing Card is issued by Visa. The purchasing card allows the District to make authorized purchases from a vendor without the requirement to issue a purchase order
