PROJECT COMPLETE

The new Haut Gap Middle School Addition is complete. The new 14,254 square foot addition is designed to house the fine arts music programs and address student population increase. The addition contains three music classrooms for band, orchestra and chorus, as well as four general classrooms. The existing music rooms have been renovated into two general classrooms, resource classrooms and offices. The addition creates a new main entrance and lobby for after hours activities in the gymnasium and provides additional paved parking at the front of the school.
