

# West Ashley Center for Advanced Studies (CAS)

## PROJECT TEAM

### Construction Management:

Cumming

### Project Manager:

Bobby Bryant

### Site Manager:

Mike Risteski

### Architect:

SGA/Little

### General Contractor:

Contract Construction

## PROJECT COMPLETE

The 3-story facility is based around an advanced technology curriculum with support from local industry partners. Students will gain hands-on training that will prepare them for technology-based careers. The CAS will house programs for Auto Technology, Mechatronics and Welding in high bay spaces. Additional programs will include Media Technology, Biomedical and Health Sciences, Audiovisual Technology and Communications, Cybersecurity and Information Technology, and Project Lead the Way (PLTW) Pre-Engineering curriculum.
