CCSD's Department of Nutrition Services will continue adhering to CDC (Center for Disease Control) recommendations by practicing social distancing in kitchens and at meal service areas, taking the temperature of staff members, wearing personal protective equipment (PPE), and providing meals on a to-go basis only (at each school's car rider drop-off line).

The U.S. Department of Agriculture has provided the school district with the flexibility to allow the distribution of meals to adults to take home to children. Meals may be distributed to adults when children are not present if the adult is able to demonstrate proof of the child's identity. Valid forms of identification may include, but are not limited to, school identification cards, school report cards, passports, birth certificates, government-issued child identification cards, or any document proving parent/guardian identity and relationship to the child (i.e. adoption decree, doctor, clinic, or hospital record, religious record, or daycare center record).
