SCREENING PROCEDURE and RUBRIC - Dance Entrance Audition, (pg 1 of 6)

## Program Expectations

The Dance Major is designed to prepare the students to be successful in dance at a University, College, or in a professional dance company. Students learn the same skills that most undergraduate dance programs and professional dance companies want to see in their dancers. In the SOA dance program students will study traditional ballet technique, several traditional styles of modern dance, and dance choreography. Students must be able to demonstrate: flexibility, coordination, musicality, alignment, focus, picking up and retaining the combinations, strength and control, and self-expression within the movement styles taught. Teachers follow the SC Dance Standards which includes elements of dance history, cultural dance, and critical thinking.

## Audition Expectations

In the audition, students will be asked to demonstrate a variety of dance combinations (ballet and modern). We look closely at how well the body is aligned, how well the body coordination is, is the dancer giving full energy, is the focus on the audition, and is the combination retained so it can be demonstrate correctly. Students will be asked to demonstrate a variety of improvisation activities.

We look closely at the range of creativity, musicality, and self-expression demonstrated within the improvisational activity. Students are led through a variety of stretches in which they demonstrate their flexibility.

For 6th grade auditions, once the list of call backs is determined, the students are asked to demonstrate a 1 min. solo dance choreographed by themselves or by another teacher. We are looking for all of the above criteria in the callbacks.

Students and parents must be aware that we accept 20 students to our program in 6th grade. Classes remain that size throughout high school.

11th and 12th grade students will perform an additional choreography assignment.
