SCREENING PROCEDURES and RUBRIC - Visual Arts Entrance Audition for 6th - 12th Grade, (pg 1 of 3)

## Program Expectations

In the School of the Arts Visual Arts Program, Visual Art majors learn the technical, conceptual, and compositional skills they will need to be successful in a university level visual art program. This includes the study of traditional art techniques developed in the style of Academic Art as developed in France in the 19th century - How to hold various art tools and manipulate media to achieve the desired artistic effects—as well as an understanding of the elements and principles of art and design. Students are also expected to create their own original works of art and use the correct terminology when discussing their work and the work of others.

The success of the Visual Arts program depends on quality instruction, and student commitment. Instruction involves but is not limited to; sketching assignments, research, and attendance of age appropriate visual arts openings in addition to classroom assignments. Students can expect to work in various media, mastering one or more of the following: Drawing, Painting, 3–Dimensional Design, 2–Dimensional design (focusing on the elements and principles of design, and photography). Students and parents must be prepared for class with materials and completed supporting assignments. The majority of our supplies are provided through the visuals arts fees and fund raising. Some supplies may need to be supplemented by the student. It is important to understand that art materials and other consumables must be replenished throughout the year.

## Audition Expectations -

In their audition, students will be asked to demonstrate their observational skills and ability to render objects realistically, as drawn from life. We look closely at how well they render shape, placement, space, texture, light, and perspective. We also are looking for confidence in line quality, light source, a unified and balanced composition and accurate placement and proportion of objects. The audition will be done virtually via a Zoom audition, students will need an 8 x 11 sheet of plain paper and pencils. Students who are able to visually convey complex compositional components and accuracy in visual representation will earn higher scores.

- Day of Drawing Test done via Zoom (test will be timed, and will follow a short tutorial).
- You will need pencils, a sharpener, paper (8 x 11 or 9 x 12), eraser and access to Zoom on a Chromebook or computer.
- Be prepared to take a photo of your drawing test and the four (4) portfolio pieces with a family member's phone and digitally upload the image to the submission platform within 30 minutes of the conclusion of the drawing test. NO EDITING is permitted.
- You will present a portfolio consisting of four (4) works created within the last year with at least one created outside of school. No cartoons or anime are accepted and will not be scored. Out of these four (4) works, three (3) of these submissions, must be a still life, portrait and a landscape. **TWO of these MUST be drawn from real life.**
- Artworks must represent at least two art mediums. Mediums include, but not limited to: pencil, pen & ink, acrylic, oil, water color, pastel or charcoal.
- Art Portfolio pieces and Zoom drawing will be submitted by students via the SOA submission platform (Google Forms) at the conclusion of the live Zoom drawing test. The portfolio pieces will need to be measured and that information along with the type of medium used will be put in the Google Form.
- Please do not write your name on your work.
- 3-D artwork, such as sculpture or ceramics, may be submitted in a photo showing top, front and back of the piece.
