

April 19th, 2021

To our 2021 Advanced Placement students and families,

We hope your Advanced Placement (AP) coursework is going well! This school year has presented numerous challenges for us, but we are confident in your teacher's instruction and preparation for this year's upcoming AP exams. Due to the safety guidelines and restrictions currently in place, the College Board has provided schools with several testing options this spring.

On the backside of this letter, we have included the testing schedule for our AP students. All AP courses have been listed with their testing date, testing time, and their testing mode. Due to the extenuating circumstances of the Coronavirus, the College Board is allowing some AP exams to be taken digitally at school or home or with paper/pencil at school. Please locate your specific AP course(s) and exam(s) test date and time so that you can adequately plan for your testing day(s).

Students are required to bring their charged CCSD issued Chromebook with their charger for the test. Students will be excused from all of their classes on the day of their scheduled AP exam. Students should plan to arrive 45 minutes before their exam's scheduled start time (8:00am exam arrive at 7:15, 12:00pm exam arrive at 11:15). Students are to check in for testing at the front of the school, in the front office. Exams will begin promptly at their scheduled time. All students must have transportation readily available to pick them up following their exam. All COVID and social distancing guidelines will be followed throughout the testing window.

If you have any additional exam questions or scheduling concerns, please contact our AP coordinator, Nick Reece, at nicholas_reece@charleston.k12.sc.us.

Nick Reece
