

Application to Provide Services to CCSD

The American Rescue Plan (ARP) Act of 2021 authorized the Elementary and Secondary School Emergency Relief (ESSER) Fund to provide substantial relief to students and educators who have been profoundly affected by COVID-19.

From the ESSER Fund, the US Department of Education (US ED) issued \$2,112,051,487 to the South Carolina Department of Education (SCDE) to support schools in safely reopening and sustaining safe operations of schools while meeting the academic, social, emotional, and mental health needs of students resulting from the COVID-19 pandemic. These funds will enable the SCDE and school districts to support students who have been most severely impacted by the COVID-19 pandemic and are likely to have suffered the most because of longstanding inequities in our communities that have been exacerbated by the pandemic.

CCSD will receive \$163,231,134 through September 2024 for activities under ESSER III. Surveys and stakeholder outreach indicated that the top 6 priorities for activities should address:

1. Needs of low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care
2. Learning loss
3. Summer learning and afterschool programs
4. Mental health services and support for students
5. Educational technology for students
6. Improve indoor air quality in schools

High quality, evidence based activities provided to the school district by established Community-Based Organizations (CBOs) is both an allowable and recommended use of these funds. CCSD intends to contract with CBOs to support students in our school district. Interested CBOs may submit a proposal detailing services they propose to provide to CCSD. Proposals should a) reflect a detailed funding request, b) exclusively support CCSD students and their families, c) address priority #1 above and at least of one the other top 6 priorities, d) identify measures of success and, e) reflect a strategy of enduring impact beyond the term of the ESSER III program.

The deadline for proposal submission is October 11, 2021. If you have any questions or concerns regarding this form, please contact us at partnerships@charleston.k12.sc.us.

Program Information

Please describe how you offer the program/service to students.

Vision: State your intended outcome of the partnership for the future

Learning how to handle disagreements and conflicts is a critical part of social emotional learning. Our Vision is to help students and families develop social skills like cooperation with each other, empathy, and self-control which are integral to emotional development and resolve many of the conflicts of life. Our vision for this program is through the teaching techniques this program offers, the student will be able to channel negative energy to something positive and navigate their path for a long successful life.

Mission: Describe what you'll do and who you do it for under this partnership

The goal or mission for the Conflict Resolution classes, are to help the students recognize the causes of conflict, and how to use different methods to resolve disagreements constructively. With de-escalation tools and social awareness, the goal is to see a reduction in behavior that drains the attention of teachers, minimize the disruption of precious teaching time, promote better camaraderie among students, and see better interactions with relationships with people

Impact: Briefly describe the intended impact your plans for this partnership in meeting the academic, social, emotional, and mental health needs of students who have been most severely impacted by the pandemic in the Charleston County School District.

In the self-management section of this course, self management is taking self-awareness and putting it into action. It refers to not only identifying, but regulating emotions, thoughts, and behaviors. With the emotional or behavioral issues stemming from the anxiety of COVID-19 in schools, Self management skills will give the students the tools they need to self-regulate their emotions and attitudes. In addition, the tools given could be used in other areas such as produce higher self esteem and self value.
