Acting Superintendent of Schools

Joseph Williams, Ph.D.  
Associate Superintendent of  
Middle Schools

Chris Haynes  
Principal

April 22, 2024

Dear Parents,

Jerry Zucker Middle School of Science serves families and their scholars in developing the necessary skills that every student needs to achieve college and career readiness as detailed in the Profile of a South Carolina Graduate. We offer a rigorous curriculum in all core subjects, as well as unique exploratory courses. Our students have opportunities to earn high school credits in English I, Algebra I, Biology, Spanish, and Discovering Computer Science. We also provide support to scholars who demonstrate deficiencies in literacy and numeracy through targeted intervention support systems. We also provide a comprehensive character education program using the Second Steps Curriculum. This curriculum prepares students in developing interpersonal skills, learning to accept responsibility, persevering in difficult situations, and regulating self-direction.

We understand that in order to prepare our scholars to compete in global markets and develop the world class skills they need to achieve success, we must provide more than just academics. Our dedication to developing the whole child is paramount.

We are committed to building community partnerships that will support our vision of preparing our scholars for success after they have graduated from high school. We have partnered with numerous corporate, faith-based, and civic institutions, and the United States Air Force. The experiences provided to our scholars through these essential partnerships will continue their development of becoming world class learners.

Our staff believes that our scholars have limitless potential to reach their own level of success. Our exemplary teaching force, our community involvement, and our dedication to each student's well-being are the tenets that guide our decisions.

We enjoy serving our scholars each day, and we look forward to continuing to build our relationship between home and school while working together to make our scholars world class citizens.

Sincerely,   
Christopher Haynes, Principal

Sharon President, President School Improvement Council
