Did you know?

- Orchestra class meets every day in middle school for 45 minutes. We are able to learn so much great music. Fiddling, classical, rock, pop, and more! We even have electric instruments.
- When signing up for classes, students can still take several other electives. For example, students can take Orchestra and other subjects like Chorus, Art, P.E., Pre-Engineering, Drama, Spanish, Marine Science, etc. Check with the guidance department for more details.
- You can sign up for Orchestra with little or no experience. Some of our students started in the 5th grade, but we accept beginners or students who want to rejoin even if they have less than one year experience. Students can also change instruments if they started on a different one.
- School cello, basses, and music stands are available to use during class so that students do not have to carry the large instruments or music stands from home. Violin/Viola students bring their instruments to school and have a locker to store it during the school day. All students usually rent instruments from a local store. Information will be sent home the first week.
- Being in string orchestra provides a great social connection to your school. Many middle school students are looking for a group of friends and a strong support system to be a part of and they find them in the orchestra!
