

STUDENT TARDY POLICY

An appropriate amount of time is allocated during class change. A warning bell is sounded 1 minute before the tardy bell to ensure that students need to expedite their return to class. When the tardy bell rings and the student is not inside of the classroom, the student is tardy. At this time the student must report to the Student Concern Specialist to obtain a blue tardy pass in order to be admitted into the classroom. The Student Concern Specialist is required to log each tardy, report tardiness to the school's data clerk, and enter a referral for the student after 3 infractions.
