

Good evening Laing families,

We would like to clarify some information about students returning to in person on Sept. 21. At this time we are not able to allow everyone that would like to be in person back into the school. We are allowed to have 64% of the students in person as of the 21st. You would have received an email from Mr. Whitehair on Sept. 10 asking to verify if you would still like to return. These people were selected by the information provided by the email that was sent out from the district on August 12 from reportcards@charleston.k12.sc.us with subject **Charleston County School District Verification of Enrollment Preference at Laing**. If you selected in person only on this email then you were asked if you would like to come back for in person instruction.

Many of you have also contacted us wanting to change your preference. We have started a waitlist for in person instruction. We will continue to work weekly to bring more students back as we are given approval and can follow safety guidelines.

Mr. Whitehair will be emailing parents directly tomorrow to notify you that your child will be returning to in person instruction on Monday, September 21. You will be notified later in the week about how your child will receive their schedule.

We understand that many students and parents are eager to return to in person instruction. We are also eager to have everyone back that wants to be in person.

If you have any questions please feel free to email me.

Thank you,

Kim Holmes
Secretary
