SCHOOL ACTIVITIES AND INVOLVEMENT

Technology in Our School:

- SMART boards and SMART document cameras in every classroom
- One to One iPads K–2nd
- Chromebooks 3rd – 5th
- Osmos
- Computer Programming Classes

Some key goals the School Improvement Council focused on in the School Renewal Plan included raising the amount of students meeting state standards in all core subject areas. We compared our SC Ready data to the previous year's data and determined that an area of focus is writing. Teachers have received professional development in a year long program for this standard. We use Lexia, DreamBox and Aleks as digital resources for reading and math. We continue with the personalized learning model to meet the needs of every student. This year we have added an assistant principal to the administrative team.

PASS Data

Percentage of students scoring Met or Exemplary

Science	Social Studies
---------	----------------

56.3%	66.7%
-------	-------

SC Ready Data

Percentage of students approaching, met or exceeding expectations

English	Math
---------	------

64.5%	74%
-------	-----
